✍ EXPERIENCE

Front-End Developer (Apr 2020 - Present)

ACCENTURE, LONDON

Recruited into a full feature team (BE & FE) for an international communications client. Developed with React and MobX for development along with Enzyme and Jest for a focus on BDD.

Full Stack Developer (Feb 2018 - Apr 2020)

ACCENTURE, LONDON

Worked with a number of languages including Python and Node.js on the Accenture Cloud Platform (ACP), familiar with Jenkins and a wealth of experience with AWS.

Big Data Engineer (Dec 2017 - Feb 2018)

ACCENTURE, LONDON

Manipulated Big Data for a national postal and courier service client using Apache Spark, Scala and HiveQL.

AWS Engineer (Sep 2017 - Dec 2017)

ACCENTURE, LONDON

Created AWS Lambda functions in Python for a disaster recovery solution for an international telecommunications client.

Web Developer (Jul 2014 - Present)

FREELANCE

Growing portfolio of websites built and hosted. Comprehensive knowledge of HTML, CSS/SCSS and JavaScript (React and SSR as well as MobX for state management). Experience with web-hosting and SEO.
